

# One Drip at a Time

How much water am I losing from a dripping faucet?

## **One Drip Per Second**

1 minute loss = 1/12 ounce  
1 hour loss = 6 ounces  
1 day loss = 1 gal & 1 pint  
1 week loss = 8 gallons  
1 month loss = 34 gallons

## **Two Drips Per Second**

1 minute loss = 1/3 ounce  
1 hour loss = 20 ounces  
1 day loss = 3 2/3 gallons  
1 week loss = 26 gallons  
1 month loss = 100 gallons

## **Drops breaking to stream**

1 minute loss = 2 ounces  
1 hour loss = 1 gallon  
1 day loss = 24 gallons  
1 week loss = 175 gallons  
1 month loss = 700 gallons

## **1/16" stream**

1 minute loss = 7 1/2 ounces  
1 hour loss = 3 1/2 gallons  
1 day loss = 64 gallons  
1 week loss = 575 gallons  
1 month loss = 2500 gallons

## **1/8" stream**

1 minute loss = 23 ounces  
1 hour loss = 11 gallon  
1 day loss = 260 gallons  
1 week loss = 1800 gallons  
1 month loss = 7800 gallons

## **3/16" stream**

1 minute loss = 39 ounces  
1 hour loss = 18 gallons  
1 day loss = 425 gallons  
1 week loss = 3000 gallons  
1 month loss = 12,750 gallons
